Case Study No. 68

Local Tailor Appointment App | Service - Business

Problem & Value

Real Problem is not Tailoring, it is Uncertainty

Customer Journey

Key Touchpoints

App booking

Staff interaction

Measurements

Status updates

Collection

Feedback

Operations & Business

Revenue Streams

Tailoring

Custom stitching & design

Alterations

Size changes & repairs

Urgent Services

Faster turnaround (premium)

Cost Structure

Labour

Tailors & staff wages

Rent

Shop space

Materials

Fabric, threads, accessories

Technology

App, software, devices

Marketing

Customer acquisition & promotion

Capacity

10 fittings/hour

(shop capacity)

Example Calculation

10 × 8 hrs × 6 days

= **480** fitting slots/week

(Assuming 8 hours/day, 6 days/week)

Key Performance Indicators

Appointment adoption

% of total visits booked

Waiting time

Average wait before service

On-time delivery

Jobs completed as per promise

SWOT Analysis

Strengths

- Existing customers
- Tailoring expertise

Weaknesses

- Walk-in habits
- Digital adoption

Opportunities

- Online booking
- Customer retention

Threats

- Peak demand
- Competitors

Low adoption

Promote booking

No-shows

Reminders

Overbooking

Capacity limits

Delays

Status tracking

Wrong measurements

Confirmation

Growth Roadmap

Go-to-Market Strategy

Pilot → Adopt → Measure → Scale

1

Start Small

Begin with 1 tailoring shop.

2

Onboard Existing Customers

Invite loyal customers first.

3

Promote Appointments

Use WhatsApp/SMS & in-store.

4

Add Incentives

Priority fitting / loyalty benefit.

5

Measure & Expand

Track results, then scale to more shops.

90-Day Pilot Plan

01 – 30 DAYS | PILOT

- Launch booking system
- Train staff
- Test appointment slots

31 – 60 DAYS | ADOPT

- Promote appointments
- Send reminders
- Collect feedback

61 – 90 DAYS | SCALE

- Improve system
- Optimize capacity
- Prepare for expansion

Why Choose Us

1

Appointment-First

Designed specifically to reduce walk-in queues and waiting.

2

Tailor-Specific Workflow

Built around measurement → fitting → stitching → alteration → collection.

3

Simple for Customers

Book → Track → Collect without complicated steps.

4

Better Capacity Planning

Appointments help the shop manage its 10 fitting slots/hour more predictably.

5

Existing Customers First

Easy adoption through WhatsApp/SMS and in-store booking assistance.

6

One Connected Journey

Booking, job status and collection updates in one flow.
